

In Like Flynn

Words & Music: **Pat Drummond**
For The Rev John Flynn, founder of The Royal Flying Doctor Service
and John Fahey, NSW State Premier 1994
Dateline; ABC Radio, Newcastle. Sunday, 9th October, 1994

**He'd been months out drovin' cattle
on the stock routes through the town
When he came out of the saddle
as he spun the stockhouse round
Another time would not have mattered
but this time cost him dear
and he felt his ribcage shatter
as he slammed into the steer**

**Another time he might have died
so I guess that his life is owed
to the dreams of another young man
a hundred years ago**

**Chorus:
In like Flynn
Somewhere in the outback
In like Flynn
There's a heart beat bringing hope back
An angel of mercy, help upon the wing
Coming in
In like Flynn**

**Well the twins were two months premi
on the day her waters broke
She was with him in the semi
on the Bourke to Cobar road
The sweetest sound that he ever heard in all his life was when
He heard them say, "We can see you, Mate,
We'll be touching down in ten!"**

**Another time they might have died so
I guess their lives are owed
To another child born of this land
a hundred years years ago**

Chorus:

**There's always clouds above us
and trouble coming in
but with a bit more hope and vision
and the courage to begin
With a few less talking failure
and few more just like him
We'd be in
In like Flynn**

Chorus:
